

BMB Analytica

One of the most important aspects of Big-Data Visualization & Analytics is the possibility to deduct new stories from wild data.

“If a picture is worth a thousand words, then a well-designed dashboard is worth ten million logs, or more”.

Unlock your data potential with BMB Analytica, a Visualization & Analytics platform made for you by top industry experts.

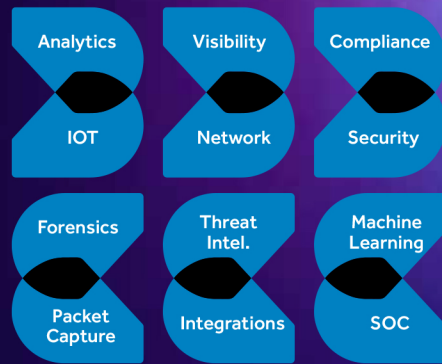

- Infinite customization possibilities adapting to your business needs
- Integration and data processing from endless type of sources
- Faster than any other data visualization tool
- Capability of Horizontal and Vertical scalability
- Highly customizable dashboards providing hybrid visualizations, filtering, and drill-downs
- Out of the box use-cases and Enterprise class scenarios
- BMB Analytica is powered by ELK Stack Framework (Elasticsearch/Logstash/Kibana)
